

ITCD 315:001 - 3D Design Modeling & Animation
Dr. Rajeev Madhavannair
Group Project 1: Due February 14th, 2011 (By 11.55 P.M)

- Use A+CAD to sketch the following hydraulic cylinder in the required dimensions/units. Use separate layer thickness for the dimension, sketch and hatching (All dimensions in inches).
- **Assignment can be turned in as a hard copy**, use the template that you had developed. You **could also print screen the A+CAD screen (with the template you had developed in the first class) and paste into a word document and then submit it on BB**. Please see the next page.
